Real change starts with Independence; we cannot expect our politicians to vote themselves off of the gravy train .

Our politicians are out of touch, they get paid huge salaries and then claim massive expenses, are they really looking out for us, or are they just lining their own pockets.

Currently the UK applies all European Legislation and then some, European Legislation must be applied with care, and common sense.

It's time to take control back from the big political parties

Support a truly independent candidate and register a vote for democracy!
